

Lab Practical #01:

1. Study of various templates. E.g. Metronic, Unify, AdminLTE, etc.

Metronic templates.

The Metronic template employed in the website embraces a minimalist approach, featuring a simple color theme and adhering to a conventional header and footer structure. Positioned on the left side of the footer is the logo, while the strategic placement of the buying button can be found in the top right corner. The website is thoughtfully organized into seven distinct sections, each serving a specific purpose.

Starting with the header, it displays documentation and a menu bar, ensuring easy navigation throughout the site. The second section, "Branding Your Website," focuses on showcasing the number of users who have embraced and benefited from the website.

Moving on to the third section, which comprises the Sidebar Menu and Templates:

The Sidebar Menu offers a diverse selection of language options, catering to various user preferences.

Template Cards present a linear arrangement, succinctly describing each template's unique features and applications.

A Static Menu on Top ensures a consistent and easily accessible static menu at the top of the site for user convenience.

The fourth section, "Supported Companies," showcases companies that endorse and support the website, providing insights into the frameworks they employ. The fifth section, "Language Versions and Information," explores different language versions and provides pertinent information about each.

The sixth section, "Reviews," gathers user reviews and testimonials, offering insights into the positive experiences users have had with the site. The final section, "Contact Details and Social Media Links," concludes the website with contact details and links to connected social media profiles, fostering engagement and communication.

Throughout the site, a deliberate choice has been made to use minimal images and gradients, contributing to a clean and uncluttered aesthetic. The intentionally straightforward design facilitates easy navigation and a clear understanding of the site's structure. The linear arrangement of

elements, including the header, content, and footer, enhances the user experience by providing a well-defined pathway through the website.

Unify templates.

The Unify template, employed on the website, boasts a visually pleasing green and white color palette and adopts a standard header and footer layout. The logo takes a prominent position on the left side of the header, showcasing an aesthetically pleasing design. Strategically placed in the top right corner is the purchase button. The site is meticulously organized into eight distinct sections, each serving a specific purpose.

Starting with the header, it displays documentation and a menu bar to facilitate seamless navigation. The second section, "Branding and Media Links," not only highlights the website's brand but also provides links to associated media platforms, showcasing user engagement metrics.

The third section, "Company Templates and Template Cards," further breaks down into:

Company Templates, showcasing the main templates developed by the company.

Template Cards, presenting a variety of cards, each representing a unique design for different purposes.

A Static Top Menu featuring essential options, including settings.

The fourth section, "Dashboard Examples," defines a dashboard example design, illustrating the template's versatility for various types of websites.

The fifth section, "Page Versions," showcases different versions of pages within a single template, providing users with a comprehensive understanding of the template's capabilities.

The sixth section, "Diverse Templates," presents a variety of templates with different definitions and applications. The seventh section, "User Reviews," gathers user reviews and testimonials, offering insights into the positive experiences of individuals who have utilized the website.

The eighth section, "Contact Details and Media Links," concludes the website with contact details and links to other media platforms, enhancing user engagement. The website design focuses on aesthetics, incorporating maximum images and themed elements reminiscent of nature. This beautiful theme enhances the overall visual appeal of the site. Additionally, the site includes a license details section, ensuring transparency and adherence to licensing requirements. The user-friendly layout, coupled with a visually appealing theme, contributes to an engaging and enjoyable user experience..

AdminLTE templates.

The AdminLTE template is characterized by a sleek blue and white color combination theme, featuring a captivating blue background throughout the website. The header and footer stand out with an outstanding background, while the logo is thoughtfully placed on the left side of the header, showcasing a well-designed emblem. The subscription button is strategically positioned on the top right corner. Despite its compact size, the website boasts an impressive design and creation achieved through standard code. The site is meticulously structured into eight sections, each serving a specific purpose.

The first section, "Header and Documentation," presents a distinctive header with a focus on documentation, offering options for download, preview, and docs. It also provides live demo options for users to explore. The second section, "Purchase Template Bar," facilitates the purchase of templates, displaying the number of templates available for users to choose from.

The third section, "Characteristics of the Website," highlights the unique features and characteristics of the website, with a small menu bar at the top enhancing navigation. The fourth section, "Developer Community Information," provides details about the developer community, including information about various developers and installation processes.

The fifth section, "Language Usage," explores the use of the website in different languages, catering to a diverse user base. The sixth section, "Issues and Client Support," features a bar for addressing issues and client support, ensuring a seamless experience for users.

The seventh section, "Supported Backed Companies," acknowledges and showcases companies backing the website, instilling trust in the user community. The eighth section, "Posts and Access," offers a dedicated space for posts and access, providing valuable content and resources for users.

Maintaining a minimalist approach by using minimum images and gradients, the website creates a beautiful theme reminiscent of the dark web. The Help and Knowledge section at the end ensures users have access to assistance and information. Additionally, a blog corner at the bottom adds a dynamic element to the site, allowing for ongoing engagement and information sharing.

2. Installation of Figma on local machine and understanding the Figma software IDE

Steps of Installation:

Step 1: Visit the Figma Website:

Open your web browser and go to <https://www.figma.com/>.

Step 2: Sign Up or Log In:

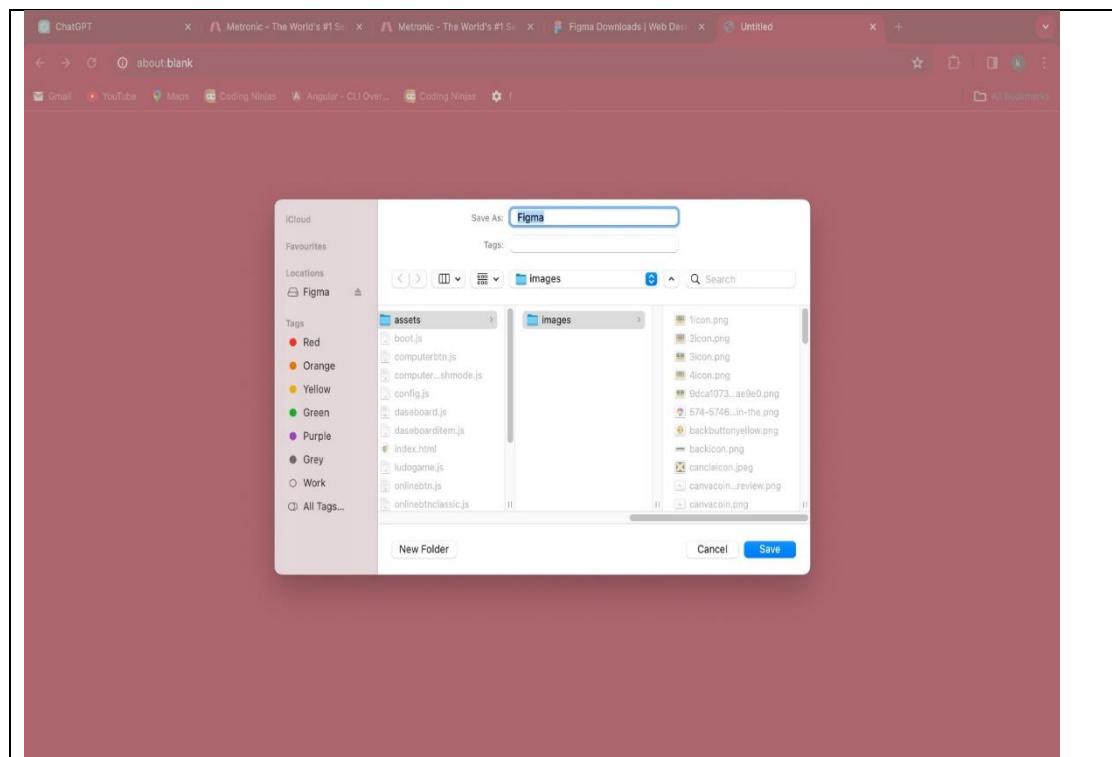

If you don't have a Figma account, sign up. If you already have an account, log in.

Step 3: Download Figma:

After logging in, navigate to the "Downloads" section. Choose the "Download for Mac" option.

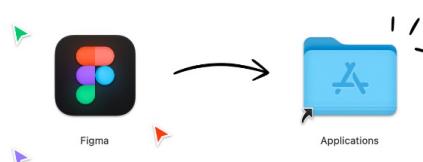

The screenshot shows the Figma Downloads page. At the top, there are three large preview cards: one for a Desktop app (macOS and Windows), one for a Mobile app (iOS and Android), and one for Font installers (macOS and Windows). Below each card are download links: Desktop app for macOS, Desktop app for Windows, Beta apps available here for the mobile section, Figma for iOS, Figma for Android, FigJam for iPad for the mobile section, macOS installer, Windows installer, and a note that the desktop app does not require the font installer.

Desktop app	Mobile app	Font installers
Desktop app for macOS	Figma for iOS	macOS installer
Desktop app for Windows	Figma for Android	Windows installer
Beta apps available here	FigJam for iPad	*Desktop app does not require the font installer

Step 4: Install Figma:

In the opened window, you will see the Figma icon. Drag and drop the Figma icon into the "Applications" folder.

Step 5: Launch Figma:

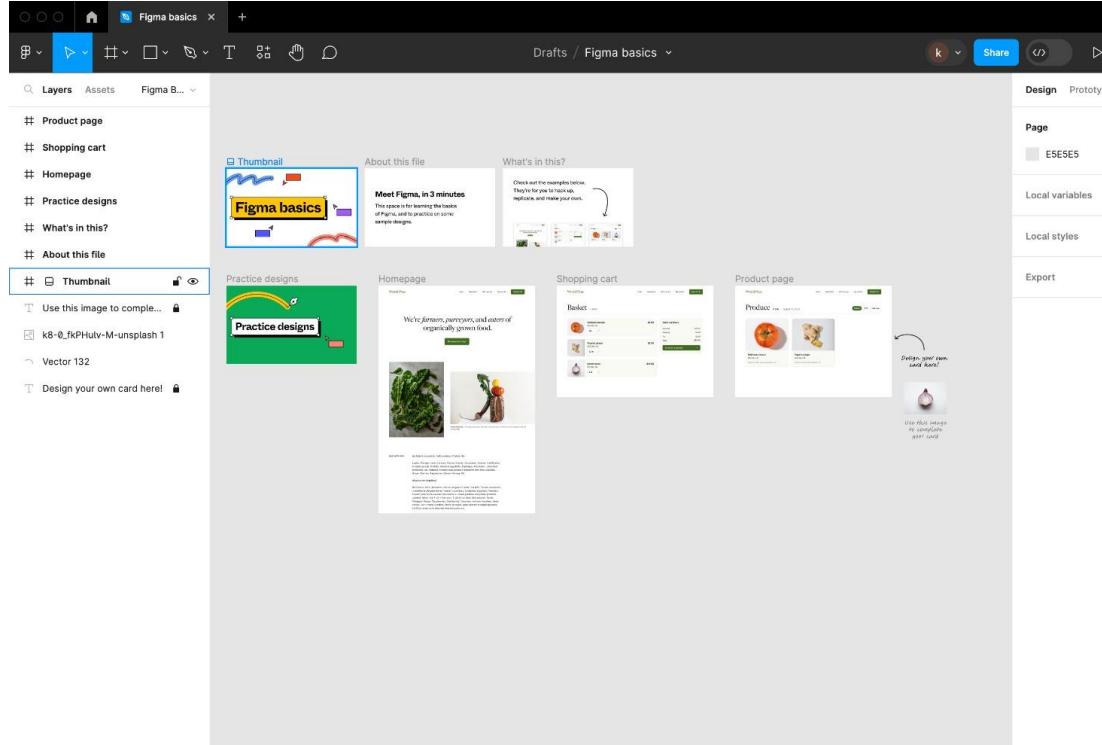

Open the "Applications" folder on your Mac. Find the Figma app and double-click on it to launch the application.

Step 6: Log In:

If you haven't logged in during the installation, you'll be prompted to do so when you first open the application.

Step 7: Start Using Figma:

After logging in, you can start using Figma to create, collaborate, and design.

Lab Practical #02:

The screenshot shows a NFT marketplace website with a blue header and footer. The header features a logo with a stylized orange 'N' and the word 'LOGO'. It includes navigation links for HOME, ABOUT US, FAQ, and CONTACT. Below the header, a large section on the left contains the text 'Most wanted NFT marketplace' and a subtext about buyers placing bids on artwork. It has two buttons: 'Sell NFT' and 'Learn More'. To the right is a large, colorful illustration of a cartoon cat with a blue collar, set against a background of planets and stars. At the bottom, there's a section titled 'Collect Your NFT Now' with three items listed: NFT# 1 (blue blob with white eyes), NFT# 2 (blue cat wearing sunglasses), and NFT# 3 (yellow blob with white eyes). Each item shows current bid amount and remaining time, with a 'Bid Now' button.

Most wanted NFT marketplace

NFT marketplace, and buyers can place bids on the artwork they're interested in or buy.

Sell NFT Learn More

Collect Your NFT Now

NFT# 1
Currently Bid 0,29 283 BTC
Remaining Time 10:08:43
Bid Now

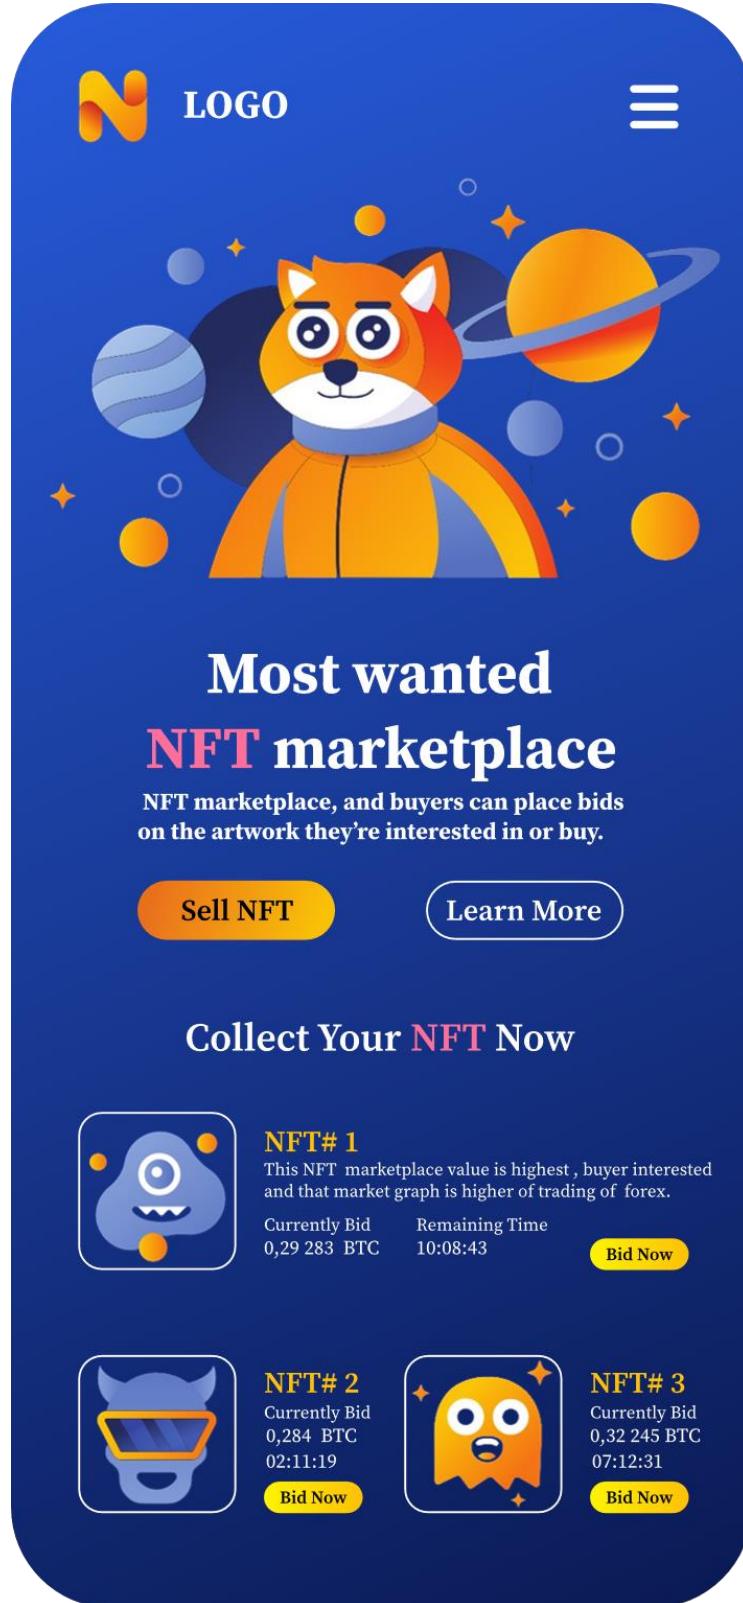

NFT# 2
Currently Bid 0,284 BTC
Remaining Time 02:11:19
Bid Now

NFT# 3
Currently Bid 0,32 245 BTC
Remaining Time 07:12:31
Bid Now

b. Mobile Screen.

(2. Phone)

(3. Tablet)

The image shows a tablet screen displaying a user interface for an NFT marketplace. The top section features a large orange cat-like character with a blue collar, set against a dark blue background with floating celestial bodies. The word "LOGO" is displayed above the character. A menu icon (three horizontal lines) is in the top right corner. Below the character, the text "Most wanted NFT marketplace" is prominently displayed in white. Underneath this, a subtitle reads: "NFT marketplace, and buyers can place bids on the artwork they're interested in or buy." Two buttons are visible: a yellow "Sell NFT" button on the left and a white "Learn More" button on the right. The main content area is titled "Collect Your NFT Now" in white. It lists three NFT items:

- NFT# 1**: Features a blue, blob-like creature with a single eye and a wide mouth. Text below it states: "This NFT marketplace value is highest , buyer interested and that market graph is higher of trading of forex." Bid information: "Currently Bid 0,29 283 BTC" and "Remaining Time 10:08:43". A "Bid Now" button is present.
- NFT# 2**: Features a blue cat head wearing a yellow and orange mask. Bid information: "Currently Bid 0,284 BTC" and "Remaining Time 02:11:19". A "Bid Now" button is present.
- NFT# 3**: Features a yellow, ghost-like creature with a surprised expression and small wings. Bid information: "Currently Bid 0,32 245 BTC" and "Remaining Time 07:12:31". A "Bid Now" button is present.

The image shows a mobile application interface. On the left, a vertical navigation menu is displayed against an orange background. The menu items include:

- Profile (with a user icon)
- Notification (with a bell icon)
- History (with a clock icon)
- Payment (with a wallet icon)
- Help & FAQ (with a question mark icon)
- Terms & Service (with a checkmark icon)
- Chat (with a speech bubble icon)
- Contact Us (with a phone icon)
- About Us (with an info icon)
- Settings (with a gear icon)
- Log out (with a log out icon)

A back arrow is located at the top left of the menu. To the right of the menu, a smaller window displays a donation interface. The header of this window reads "Give today, so we can thrive tomorrow". It features a search bar with the placeholder "type something...". Below the search bar is a section titled "Urgent Causes" with a thumbnail image of a woman and two children. Further down, there is a progress bar for a donation campaign titled "Donate for hungry people" with a target of \$4,000. At the bottom of the window, there are two buttons labeled "Food" and "Money", and a large orange button labeled "Donate Now".

The application interface features a vertical orange sidebar on the left containing ten white icons: profile, user, notification, clock, calendar, question, checkmark, message, phone, and gear. The main screen has a white background with a large orange header bar at the top.

Lab Practical #08:

1. Create screens to add/edit/view product information.

- a. View Product Information Screen.

The screenshot shows a mobile application interface for a charity organization. At the top, there's a large photo of a woman and three children. Below the photo is a progress bar indicating 50% towards a target of \$4,000. To the right of the progress bar is an 'Edit' button. On the left side of the screen, there's a sidebar with various sections: 'Descriptions' (a brief message about sharing excess food), 'Participants' (20,451+ people), a map showing the location in USA, and a section for 'Needy kids world' which is verified as an NGO. The main content area has sections for 'Our Services' (Healthy, Quality, Supports) and 'Our Achievements' (30+ donations completed, 70+ volunteers, 100+ smiles served, 100+ foods served). There are also 'Read Blogs' and 'How can We Help?' sections. A large orange 'Donate Now' button is at the bottom right.

Lab Practical #12:

1. Create screen to Payment information.
 - a. Payment Information Screen.

The image displays two mobile application screens for a payment information system.

Left Screen (Payment Information Screen):

- At the top, a navigation bar shows a back arrow and a progress bar with four steps: Charity (checkmark), Enter Detail (checkmark), Payment process (circle), and Successful (grey circle).
- The main content area starts with "Donation Amount" and a row of four buttons: \$51, \$101, \$201, and \$351.
- Below that is "Select Payment Method" with a dropdown menu showing "Credit/Debit Card".
- The "Credit/Debit Card" section contains a "Select Card" button and icons for VISA, Mastercard, and PayPal. A sample Visa card is shown with the number 2541 5623 1254 4568, name David Williams, and expiry date 29 th Feb, 2024.
- Other payment method options listed are "Google Pay/Other", "Netbanking", and "Wallet".
- A large orange "Send Money" button is at the bottom.

Right Screen (Successful Donation Confirmation):

- At the top, a progress bar shows all four steps (Charity, Enter Detail, Payment process, Successful) with checkmarks.
- The center features a large red circular icon with a white checkmark and a burst of red stars.
- The text "Donation Successful!" is displayed in large red letters, accompanied by a small confetti icon.
- Below the success message, it says "Amount Paid: \$51" and "Payed by Visa card".
- Decorative white stars are scattered around the bottom of the screen.
